

Notes about this template

The first page is a sample that shows you how I use it.

The second page is a general template. You can print out as many as you'd like. I prefer to have one page for each of the most common vegetables and herbs I plant every year.

The pages after that are various templates I use for different seasons and areas in my garden.

Print whatever pages feel the most useful to you.

Enjoy!

Megan

SAMPLE PAGE

Basil

NOTES

Plant Red Rubin next year
Rutgers DMR rocks!
Try successions

How many planted?

2022: 11

2023:
